Kongress SGG / SGG Conference

14. Juni / June 14, 2018, Montreux

Nr.	Author(en) / Author(s)	Zugehörigkeit(en) / Affiliation(s)	Titel / Title
DE1	Lea Berger	Schweizerische Akademie der Geistes- und Sozialwissenschaften	a+ Swiss Platform Ageing Society
DE2	Christina Röcke ¹ , Mathias Allemand ^{1,2} , Robert Weibel ³ , Mike Martin ^{1,2}	¹ URPP "Dynamics of Healthy Aging", University of Zurich; ² Department of Psychology, University of Zurich; ³ Department of Geography, University of Zurich	Mobility, physical activity and social interactions in the daily lives of healthy older adults: Study protocol of the MOASIS project
DE3	Marko Katana ^{1,2} , Christina Röcke ² , Mathias Allemand ^{1,2}	¹ Department of Psychology, University of Zurich; ² URPP "Dynamics of Healthy Aging", University of Zurich	Dynamics of daily affect and non-exercise physical activity in healthy older adults: Findings from the Mobility, Activity and Social Interaction Study (MOASIS)
DE4	Tim Lacker ^{1,2} , Andreas Walther ³ , Ulrike Ehler ^{1,2}	¹ Department of Psychology, University of Zurich; ² URPP "Dynamics of Healthy Aging", University of Zurich; ³ Department of Psychology, Technical University of Dresden, Germany	Preliminary results of the Longitudinal Men's Health 40+ Study – Biopsychological factors of healthy aging
DE5	Jessica Oswald ¹ , Pia Gschwend ¹ , Susan Mérellat ¹ , Christina Röcke ¹ , Mike Martin ^{1,2} , Lutz Jäncke ^{1,2}	¹ URPP "Dynamics of Healthy Aging", University of Zurich; ² Department of Psychology, University of Zurich	The effect of late-onset multilingualism on changes in executive functions in healthy older adults
DE6	Tabea Meier ^{1,2,3} , Andrea B. Horn ³ , Matthias R. Mehl ⁴ , Mike Martin ^{2,3}	¹ LIFE-scholarship funded by the Jacobs Foundation; ² Department of Psychology, University of Zurich; ³ URPP "Dynamics of Healthy Aging", University of Zurich; ⁴ Department of Psychology, University of Arizona, USA	Capturing health through natural word use: A narrative-based online study on healthy aging
DE7	Burcu Demiray ^{1,2} , Mike Martin ^{1,2}	¹ Department of Psychology, University of Zurich; ² URPP "Dynamics of Healthy Aging", University of Zurich	Functions of conversational time travel: A naturalistic observation study of young and older adults
DE8	Damaris Aschwanden ^{1,2} , Matthias Kliegel ³ , Mathias Allemand ^{1,2}	¹ Department of Psychology, University of Zurich; ² URPP "Dynamics of Healthy Aging", University of Zurich; ³ Department of Psychology, University of Geneva	Cognitive complaints mediate the effect of cognition on emotional stability
DE9	Minxia Luo ^{1,2} , Burcu Demiray ^{1,2} , Mike Martin ^{1,2}	¹ Department of Psychology, University of Zurich; ² URPP "Dynamics of Healthy Aging", University of Zurich	Real-life cognitive activities of language use across different social contexts: A naturalistic observation study of young and older adults
DE10	Vera Schumacher ^{1,2} , Claudio Maibach ^{1,2}	¹ Department of Psychology, University of Zurich; ² URPP "Dynamics of Healthy Aging", University of Zurich	Digital media usage and cognitive development in old age
DE11	Eliana Brianza ¹ , Burcu Demiray ^{1,2} , Mike Martin ^{1,2}	¹ Department of Psychology, University of Zurich; ² URPP "Dynamics of Healthy Aging", University of Zurich	Perceptions and utterances about the future and their link to life satisfaction in older adults
DE12	Mona Neysari ^{1,2} , Mike Martin ^{1,2}	¹ Department of Psychology, University of Zurich; ² URPP "Dynamics of Healthy Aging", University of Zurich	"you", "I" and "we" after three years: Within person changes in language use over three years in three different age groups
DE13	Matthias Kliegel ^{1,2} , Delphine Fagot ² , Nicola Ballhausen ^{1,2} , Marie Baeriswyl ² , Michel Oris ² , Andreas Ihle ^{1,2}	¹ Department of Psychology, University of Geneva; ² Center for the Interdisciplinary Study of Gerontology and Vulnerability, University of Geneva	Cross-lagged associations of stimulating leisure activities and cognitive functioning in old age: The moderating role of early- and midlife cognitive reserve markers and general health status
DE14	Andreas Ihle ^{1,2} , Rafal Albiński ³ , Kamila Gurnowicz ³ , Matthias Kliegel ^{1,2}	¹ Department of Psychology, University of Geneva; ² Center for the Interdisciplinary Study of Gerontology and Vulnerability, University of Geneva; ³ Department of Psychology, SWPS University of Social Sciences and Humanities, Warsaw, Poland	Four-week strategy-based training to enhance prospective memory in older adults: Targeting intention retention is more beneficial than targeting intention formation
DE15	Andreas Ihle ^{1,2} , Nicola Ballhausen ^{1,2} , Michel Oris ² , Matthias Kliegel ^{1,2}	¹ Department of Psychology, University of Geneva; ² Center for the Interdisciplinary Study of Gerontology and Vulnerability, University of Geneva	The relation of metabolic syndromes and chronic diseases to cognitive decline in old age: The moderating role of cognitive reserve
DE16	Sascha Zuber ¹ , Andreas Ihle ^{2,3} , Vanessa Loaiza ⁴ , Katharina M. Schnitzspahn ⁵ , Christoph Stah ⁶ , Louise H. Phillips ⁵ , Christoph P. Kaller ⁷ , Matthias Kliegel ^{1,2,3}	¹ Department of Psychology, University of Geneva; ² Center for the Interdisciplinary Study of Gerontology and Vulnerability, University of Geneva; ³ Swiss NCCR "LIVES – Overcoming vulnerability: Life course perspectives", University of Geneva; ⁴ Department of Psychology, University of Essex, UK; ⁵ School of Psychology, University of Aberdeen, UK; ⁶ Department of Psychology, University of Cologne, Germany; ⁷ Department of Neurology, University Medical Center Freiburg, Germany	Explaining age effects in working memory capacity: The role of updating, inhibition, and shifting

Nr.	Author(en) / Author(s)	Zugehörigkeit(en) / Affiliation(s)	Titel / Title
DE17	Martina von Arx ¹ , Matthieu P. Boisgontier ² , Boris Cheval ¹ , Stefan Sieber ¹ , Matthias Kliegel ¹ , Eric Widmer ¹ , Delphine Courvoisier ¹ , Idris Guessous ³ , Claudine Burton-Jeangros ¹ , Stéphane Cullati ¹	¹ Swiss NCCR "LIVES - Overcoming vulnerability: Life course perspectives", University of Geneva; ² Department of Physical Therapy, University of British Columbia, Canada; ³ Unit of Population Epidemiology, Geneva University Hospitals	Disadvantaged childhood socioeconomic circumstances are associated with higher levels of depression in old age
DE18	Jacqueline Frick, Susanne Nieke, Sandra Oppikofer, Hans Rudolf Schelling	Zentrum für Gerontologie, Universität Zürich	Self-determination as a quality aspect of life in old age from the viewpoint of different generations
DE19	Alexander Seifert	Zentrum für Gerontologie, Universität Zürich	Nutzung des Internets in Alterspflegeinstitutionen
DE20	Sabina Misoch	Interdisziplinäres Kompetenzzentrum Alter (IKOA), FHS St.Gallen	Digitalisierung & Alter: Nutzung digitaler Dienstleistungen bei Menschen 65+
DE21	Cora Pauli, Stephanie Lehmann, Sabina Misoch	Interdisziplinäres Kompetenzzentrum Alter (IKOA), FHS St.Gallen	Living Labs für die Testung von AAL Technologien – Erfahrungen mit Aufbau und Betrieb natürlicher Testumgebungen
DE22	Stephanie Lehmann, Cora Pauli, Sabina Misoch	Interdisziplinäres Kompetenzzentrum Alter (IKOA), FHS St.Gallen	Gemeinsam forschen – Partizipative Forschung am Interdisziplinären Kompetenzzentrum Alter der Fachhochschule St.Gallen
DE23	Esther Ruf, Stephanie Lehmann, Sabina Misoch	Interdisziplinäres Kompetenzzentrum Alter (IKOA), FHS St.Gallen	Affektive Faktoren der Roboterakzeptanz bei Menschen 60+
DE24	Daniel Waeber, Sabina Misoch	Interdisziplinäres Kompetenzzentrum Alter (IKOA), FHS St.Gallen	AGE-NT - Alter(n) in der Gesellschaft: Ein Netzwerk für Wissenschaft und Praxis
DE25	Sandro Caminada ¹ , Sarah Reinhard ² , Sandra Signer ² , Simone Albert ² , Reto W. Kressig ^{2,3} , Stephanie A. Bridenbaugh ²	¹ Institute for Exercise and Health Sciences, University of Basel; ² University Center for Medicine of Aging, Felix Platter Hospital, Basel; ³ Faculty of Medicine, University of Basel	Effect of 6-weeks of thrice weekly gait training with THERA-trainer Lyra in addition to conventional inpatient physical therapy on gait in geriatric rehabilitation patients compared to physical therapy alone: Active-controlled, parallel group, randomised, intervention pilot trial
DE26	Irene Härdi ¹ , Stephanie A. Bridenbaugh ¹ , M. Elaine Cress ² , Reto W. Kressig ¹	¹ University Center for Medicine of Aging, Felix Platter Hospital, Basel; ² Institute of Gerontology, Department of Kinesiology, University of Georgia, USA	Validity of the German version of the Continuous Scale Physical Functional Performance 10 Test (CS-PFP 10)
DE27	Sarah Reinhard ¹ , Stephanie A. Bridenbaugh ¹ , Yves J. Gschwind ¹ , Urs Granacher ² , Andreas U. Monsch ^{1,3} , Reto W. Kressig ^{1,4}	¹ University Center for Medicine of Aging, Felix Platter Hospital, Basel; ² Division of Training and Movement Sciences, University of Potsdam, Germany; ³ Faculty of Psychology, University of Basel; ⁴ Faculty of Medicine, University of Basel	Ginkgo biloba special extract LI 1370 improves dual-task walking in patients with MCI: A randomised, double-blind, placebo-controlled exploratory study
DE28	Julia Reinhardt ^{1,*} , Celine N. Bürki ^{1,2,*} , Oana G. Rus ² , Christoph Stippich ¹ , Stephanie A. Bridenbaugh ² , Reto W. Kressig ² , Maria Blatow ¹	¹ Division of Diagnostic and Interventional Neuroradiology, Department of Radiology, University of Basel Hospital & University of Basel; ² University Center for Medicine of Aging, Felix Platter Hospital, Basel & University of Basel; *Equal contributions	A protocol for functional MRI to detect neural patterns of cognitive-motor dual tasking - A potential marker for early signs of dementia
DE29	Daniela S. Jopp ^{1,2} , Charikleia Lampraki ^{1,2}	¹ Institute of Psychology, University of Lausanne; ² Swiss NCCR "LIVES – Overcoming vulnerability: Life course perspectives", University of Lausanne	Direct and indirect associations of leisure activities to depression through psychological strengths: Findings from the Fordham Centenarians Study
DE30	Charikleia Lampraki ^{1,2} , Daniela S. Jopp ^{1,2} , Dario Spini ^{2,3}	¹ Institute of Psychology, University of Lausanne; ² Swiss NCCR "LIVES – Overcoming vulnerability: Life course perspectives", University of Lausanne; ³ Institute of Social Sciences, University of Lausanne	Are multiple group memberships beneficial for well-being after divorce?
DE31	Priscille Jamin, Emmanuelle Salina, Cecilia Salaun, Daniela S. Jopp	Swiss NCCR "LIVES – Overcoming vulnerability: Life course perspectives", University of Lausanne	Coping in very old age: Use and utility
DE32	Cecilia Salaun, Emmanuelle Salina, Priscille Jamin, Marianne Richter, Daniela S. Jopp	Swiss NCCR "LIVES – Overcoming vulnerability: Life course perspectives", University of Lausanne	Relationship quality and well-being in very old parent and child dyads
DE33	Marianne Richter, Daniela S. Jopp, Charikleia Lampraki	Institute of Psychology, University of Lausanne	Predictors of subjective well-being before and after retirement
DE34	Claudia Meystre ¹ , Daniela S. Jopp ¹ , Joëlle Darwiche ² , Kathrin Boerner ³ , Charikleia Lampraki ¹ , Dario Spini ¹	¹ Swiss NCCR "LIVES – Overcoming vulnerability: Life course perspectives", University of Lausanne; ² Institute of Psychology, University of Lausanne; ³ University of Massachusetts Boston, Boston, MA	Very old adults and their children: How do support exchanges vary depending on health and relationship quality?
DE35	Jana Nikitin ¹ , Alexandra M. Freund ^{2,3}	¹ Faculty of Psychology, University of Basel; ² Department of Psychology, University of Zurich; ³ URPP "Dynamics of Healthy Aging", University of Zurich	Who cares? Age-related focus on others in social interactions
DE36	Georg Rahn ¹ , Sarah E. Martiny ² , Jana Nikitin ¹	¹ Faculty of Psychology, University of Basel; ² Department of Psychology, UiT The Arctic University of Norway	Believing in negative age stereotypes decreases older workers' social approach motivation
DE37	Sarah Hoppler, Lena Jäggi, Jana Nikitin	Faculty of Psychology, University of Basel	Positive and negative social interactions: A taxonomy

Nr.	Author(en) / Author(s)	Zugehörigkeit(en) / Affiliation(s)	Titel / Title
DE38	Shauna L. Mc Gee ^{1,2} , Jan Hölzge ^{1,2} , Andreas Maercker ^{1,2} , Myriam V. Thoma ^{1,2}	¹ Department of Psychology, University of Zurich; ² URPP "Dynamics of Healthy Aging", University of Zurich	Healthy ageing despite the odds: The role of mediating and moderating factors in healthy ageing following early-life adversity
DE39	Jan Hölzge ^{1,2} , Shauna L. Mc Gee ^{1,2} , Andreas Maercker ^{1,2} , Myriam V. Thoma ^{1,2}	¹ Department of Psychology, University of Zurich; ² URPP "Dynamics of Healthy Aging", University of Zurich	Successful aging as a potential consequence of early-life adversity: A mediation analysis
DE40	Myriam V. Thoma, Jan Hölzge, Shauna L. Mc Gee, Andreas Maercker	¹ Department of Psychology, University of Zurich; ² URPP "Dynamics of Healthy Aging", University of Zurich	Successful aging in former indentured child labourers – A qualitative study
DE41	Emily Schuler, Cristina Maria de Souza Brito Dias	Laboratory of Family, Gender and Social Interaction, Catholic University of Pernambuco, Brazil	The importance of great-grandparents in the multigenerational family
DE42	Fatima Heussler, Magdalena Seibl, Judith Wildi, Katherine Stöcklin	Kompetenzzentrum für Sehbehinderung im Alter (KSIA), Zürich	Sehbehinderung im Alter – Selbständigkeit dank transdisziplinärem Ansatz
DE43	Bernhard Müller, Esther Zürcher	Institut Alter, Berner Fachhochschule	Daheim statt Heim
DE44	Regula Blaser, Jeanne Berset	Institut Alter, Berner Fachhochschule	Entwicklung eines Trainingsprogramms zur Stärkung der Handlungskompetenzen von Pflegepersonen im Umgang mit Menschen mit Demenz (SHAPE-D)
DE45	Christina Ahrens Brändle, Agnes König, Regina Mayer, Jacques-Emmanuel Schaefer	Assessment- und Triage-Zentrum Geriatrie, Geriatrie Spital Thurgau	Aufbau des Assessment- und Triage-Zentrums Geriatrie Thurgau
DE46	Ulrich Otto ¹ , Birgit Kramer ² , Karin van Holten ¹ , Iren Bischofberger ¹ , Pirkko Jann ² , Anette Franke ²	¹ Careum Forschung, Kalaidos FH Gesundheit, Zürich; ² Evangelische Hochschule Ludwigsburg, Deutschland	Distance Caregiving – Multiperspektivisch analysieren und auf Mikro-, Meso- und Makroebene stark machen
DE47	Heidi Kaspar ¹ , Ulrich Otto ¹ , Andrea Kofler ² , Christophe Kunze ³ , Isabella Hämmerle ⁴ , Guido Kempter ⁴	¹ Careum Forschung, Kalaidos FH Gesundheit, Zürich; ² Institute of Facility Management, Zürcher Hochschule für angewandte Wissenschaften (ZHAW), Wädenswil; ³ Institut Mensch, Technik Teilhabe (IMTT), Hochschule Furtwangen, Deutschland; ⁴ Forschungszentrum Nutzerzentrierte Technologien, Fachhochschule Vorarlberg, Dornbirn, Österreich	Viele Zuhauses als «Versuchslabor» grenzüberschreitend skalieren – IBH-Living Lab »Active & Assisted Living«
